PRESIDENT FAVERS LEAGUE OF NATIONS

Says he Believes Such a League is
Absolutely Indispensable to the
Maintenance of Peace

DENIES TRUTH OF DISPATCH

Declares Report He Approves Plan
of The League to Enforce
Peace is Entirely False

(By United Press.)

Paris, Dec. 18.—"I not only favor the league of nations, but I believe formation of such a league is absolutely indispensable to the maintenance of peace," President Wilson declared today.

The president made his statement in denying the truth of a dispatch published in an American newspaper declaring he approved the plan of the League to Enforce Peace.

"It is entirely false," the president said. "I am, not only in favor of the league of nations but I believe formation of such a league as absolutely indispensable to the maintenance of peace. The present plan of the league in enforcing peace was never studied or endorsed by me."

The visit of the Italian Royal families and ministers to Paris will afford the first opportunity for the United States, France and Italy to get together on the matters of peace aspirations.

Premier Orlando and foreign minister, Soncino, will be in conference with President Wilson, the American delegates and French minister.

The Italian party will arrive tomorrow. They will probably urge Italy's special desire relative to her supremacy of the Adriatic; adjustment of the conflicting claims of Italy and the Jugo-Slavs on the eastern coast of the Adriatic; Italy's claim in the western Mediterranean and in northern Africa and the final disposition of both Austrian navy and merchant marine.

Italy desires that the enemy's indemnities shall be divided among the allies according to the damages suffered.

The first conferences of the complete American peace delegations will be held late this afternoon, when President Wilson goes to the Crillon Hotel to meet the other representatives.

America's strongest weapon in the peace negotiations is its ship building facilities and its control of raw materials. Great Britain, it is learned, would like 2,000,000 tons of American built merchant ships and France 1,000,000. Both countries are eager to make arrangements for distribution of raw material and insurance against over-shipping.

All nations would appreciate nationalization of American merchant marines and a share in our raw material, thus ending America's domination of the world markets.

America's participation in the world policies and commercial activities will depend entirely on the willingness of the entente powers to enter a league of nations. President Wilson is expected to show that a league will eliminate the danger of discriminating trade conditions.

President Wilson has been in France less than a week, yet signs are piling up that France and the United States are coming to an agreement. This does not mean that they are in absolute agreement on the entire peace program but conferences are going on with a healthy rock bottom basis, according to convictions of the French. Everybody is confident already that there is no trouble ahead, high officials announced today.

Sen. Knox Says League of Nations and Peace Are Separate Questions

Indiana State Library

Washington, Dec. 18.—Reiteration of his claim that the league of nations should be considered apart from the peace treaty, Senator Knox of Pennsylvania, today declared, that the issues of the war were issues between neutral powers, the central powers and the allies and the functions of the peace treaty is to settle those issues.

Knox began his speech directly after the senate foreign relations committee had adjourned until Saturday without taking definite action on his resolution, regarding the league. He declared that many of the American people does not know what the president meant by a league of nations.

Robert Taylor Alleges Wife Elopement With Another Man 5 Days Before He Was Discharged.

FILES SUIT FOR A DIVORCE

Alleging that his wife, Mamie Brenton Taylor, eloped on December 1 with Clifford B. Eggleston, alias Clifford B. Hyland, five days before he was mustered out of service at Camp Taylor, Kentucky, Robert A. Taylor has filed suit in the circuit court for a divorce.

Taylor charges that his wife is now living in the state of Michigan in an unlawful manner with Eggleston. He recites that she was intimate with many men, whose names he does not know, while he was in the service of his country. He was inducted into the army here July 21, 1918 and sent to Camp Taylor, the complaint recites, after which time his wife became untrue to him.

Taylor says that he and his wife were married April 6, 1918 and that they have not lived together since July 21, when he went to the army. He gives his residence as Rushville township, Rush county.

CONFlict IN BERLIN IS YET UNDECIDED

Demonstrations by Soldiers Outside Reichstag More Serious Than First Appeared

INSURGENT MEETING IS OFF

(By United Press.)

Berlin, Dec. 18.—The conflict between the radicals and Ebert-Hesse government, which broke out afresh yesterday, is yet undecided. The demonstrations by soldiers outside of the reichstag building, led by Liebknecht, were more serious than first appeared.

The insurgent meeting of the Reichstag in defiance of the Ebert-Hesse government, was called off today by President Fehrenbach. He explained the meeting was "rendered unnecessary by extending of the armistice." By some it was regarded in some quarters as a complete backdown.

RUSS MONARCHY PLAN FAILS

ARMY BOARD MAY GET RECOGNITION

Prospects of Members Receiving Medals and Possibly Brevet Commissions

WORK PRACTICALLY ENDED

Hints Let Fall by Secretary of War Indicate Fitting Remembrance is Contemplated

That members of the Rush county army selection board, in common with all local boards all over the United States, may receive some recognition from the government for their services, is indicated by hints coming from various sources.

Whether this recognition shall come in the form of a brevet commission or medals, or both, it is not known, but it is certain that either these means will be used by the government to show its appreciation of their work, or some other method will be adopted.

A brevet commission may range all the way from the rank of lieutenant to major, without pay, and gives the holder an honorary title, in addition to permission to wear a uniform, it is presumed, if he so desires.

Hints let fall by Secretary of War Baker, in his address before the annual conference of governors of states, at Annapolis, which closed today, make it plain that the government has in store some surprise for members of local boards.

The work of the local board is practically at an end, all records having been sealed and replies having from practically all employers of selected men called into the service, with respect to their employment when they are mustered out. The board expects to receive soon an honorable discharge, just as is granted every soldier who has been in the service.

It is believed here that the records are surely going to Washington, where the facts about each man's service will go in an individual case there to be kept permanently. In after years, when any federal officer needs to know about the record of any man in any county, who was passed through the machinery of the board, he will merely refer himself by means of a giant index, to the particular box where all the record will be found, compact and ready.

The total's documentary result of the board's work, which began here the first day of May, 1917, has a gross avordupois of several thousand pounds. Many questionnaires are blazoned over with two, four, or even six or seven separate affidavits. Every fact upon them had to be gained, and written down. When it is remembered that the questionnaires were thousands in number, and that for every one of them there had to be a course of correspondence, card supplementation and other matter which is no part of the permanent record, and when atop of all this, it is remembered that the handling of the questionnaires was only one item of the board's work. It becomes possible to obtain some idea of the scale and volume of the service of this body.

The pay of the board members has been pay in name, rather than in effect. As a body, the board has had to pay, out of its own funds, at last as much as its salary gave it. As a financial enterprise, the service of the board members, on the board, represents a loss and a pretty large one. But the board members did not enter this work with the thought of making money. They entered it as other soldiers entered service—because they were called, because duty pointed the way, and they had no disposition to sidestep duty.

It is believed that the government is devising some plan of adequate compensation, or at least of proper and sufficient recognition, of

"FLU" HINDERING ROLL CALL DRIVE

Canvasser Unable to Visit Twenty-five Homes in One District Because of Epidemic

SOME GOOD NEWS, HOWEVER

Governor Goodrich Today Issues an Appeal For Support of Roll Call Canvass

Although the epidemic of influenza, which makes it impossible to visit scores of homes in the county, is expected to slow up the Red Cross Roll Call week membership campaign this week, those in charge of the drive are confident of ultimate success because of early unofficial reports which have been received.

No exact reports have been received from any of the townships yet by A. L. Gary, chairman of the campaign, but he has learned that in many districts all the way from seventy-five to one hundred percent of the population has been enrolled.

An idea of how the influenza is hindering the canvass may be gained from the report of one canvasser in Rushville, who said he was unable to visit twenty-five homes in his territory because of patients suffering with the influenza.

Beginning with today, every canvasser in the county is given permission to solicit any person, any place, any time, who is not wearing a 1919 Red Cross button. It behoves everybody who has not paid their dollar and obtained a membership for next year, to do so at once, because they are very likely to be besieged on all sides by canvassers, who are anxious to see Rush county make an unusually fine showing in the Red Cross Roll Call campaign.

Governor James P. Goodrich has made an appeal for support of the campaign in the following statement released for publication today. To the People of Indiana.

The Hoosier state is in the midst of a great campaign, part of a real national movement—the Christmas Membership Roll Call of the American Red Cross. Indiana people are called upon to enroll under the banner of the world's greatest mercy organization. But few days are left for our state to respond to the call. There is danger that Indiana's glory in past patriotic achievements may be dimmed if an indifferent ear is turned to this important call. We must answer with a united voice that will be heard by our boys across the sea—that we are still backing the organization that was first to minister to them in their hour of need.

That slogan of the campaign "All it takes is a heart and a dollar," must not fall on unheeding ears in Indiana. No citizen can afford to say to himself, "The war is over, why should I join." The work of the Red Cross must go on and on. War has left behind a hideous legacy of poverty and want, of suffering and distress. There is work to be done that calls for millions of willing consecrated hands and hearts. Your membership will help the Red Cross to complete the great task. There is not to be another money-getting campaign for the Red Cross. In responding to this Roll Call we are simply showing our faith and approval in what the Red Cross has done, in what it hopes to accomplish. It is an endorsement of the traditional principles of the Red Cross "Humanity and Mercy."

When we answer "Here" to this Christmas Roll Call we say to our boys over there, "We are still backing you to the last dollar." Let us, as loyal Hoosiers make it a universal Red Cross membership in Indiana. Let us be able on Christmas eve to point to a Red Cross service flag in every window. If we fail in this great test it will be the first in

FOLLOW HER SON IN DEATH

Mrs. Ora Walls Expires of Influenza-Pneumonia Near New Salem.

Following her son in death within twenty-four hours, Mrs. Ora Walls expired at her home near New Salem shortly after noon yesterday, both deaths being due to influenza-pneumonia. Mrs. Walls was not expected to live when her son, Willard, age fourteen years, died Monday. A pitiable condition exists at the Walls home because six children left in the family are all afflicted with the influenza, and one of them is a three-days-old baby. Mrs. Walls was 32 years of age and is survived by her husband, in addition to the children. The funeral services will be held at the late residence tomorrow morning at 10:30 o'clock and burial will take place in Hopewell cemetery.

TODAY'S REPORT IS MOST ENCOURAGING

Only One New Case of Influenza is Reported For a Period of Twenty-Four Hours

DAILY AVERAGE IN CITY IS 8

The influenza epidemic report today was the most encouraging it has been for many weeks because only one new case of the malady was reported during the twenty-four hour period ending at noon.

Catherine Feltz, age five years, 314 West Tenth street, was the lone patient reported. The county health officer has received no reports of new cases outside of Rushville since yesterday morning.

The decrease in new cases in the last few days is reflected in the total for the month so far in Rushville—144, which make the daily average of new patients eight since the first of December. Up to December 14 the daily average was ten cases a day in Rushville.

A representative of the state board of health was here yesterday conferring with the health officers and Mayor Irvin regarding the local situation and he went away satisfied that it was well in hand.

YANKS IN POSITION ALONG RHINE RIVER

First, Second and 33rd Divisions Complete March and Patrol Northern Half of Bridgehead

3 DIVISIONS ARE IN SUPPORT

With the Americans Across the Rhine, Dec. 18.—The first, second and 33rd divisions have completed their march and are patrolling the edge of northern half of the semicircle bridgehead. The French occupy the south half, the 42nd taking their positions on the left bank of the Rhine, north of Coblenz and the fourth occupying similar positions south of the city. The third division in a column thirty miles long, marched up the Rhine, falling in position behind Coblenz and passed through the edge of the city. The 76th field artillery with a mounted band marched in along the Rhine at dusk.

The 33rd, 98th, and 90th divisions are taking positions of support along the frontier.

SEE PROSPECT FOR FINISHING STREET

City Councilmen Hear Letter From C. L. Henry, Saying Pavement May be Completed

REGULAR MEETING IS HELD

Council Kills Mayor's Ordinance Making it Unlawful to "Dress Up" Hallowe'en

Favorable prospects for the completion of the pavement of Third street next spring were seen at the regular meeting of the city council last night when a letter from Charles L. Henry, president of the Indianapolis & Cincinnati Traction company was read, saying arrangements could probably be made for resumption of work on the improvement as soon as the weather is suitable early in 1919.

The council instructed the city clerk to reply to Mr. Henry between now and March 1, informing him that the city would like to have the pavement finished as soon as possible.

The council also voted unanimously against an ordinance prepared by Mayor A. B. Irvin to prevent the wearing of masks and grotesque costumes on Hallowe'en night. The vote was taken when the proposed ordinance was read for the third time and placed on final passage. The measure was very severe in its terms and provided a fine for even appearing on the streets with a "false face." It was prepared by the mayor soon after last Hallowe'en and took its regular course, coming up for first and second readings at successive council meetings, and then for third reading and passage last night. Councilmen had previously indicated they would not vote for the measure.

A motion was placed before the council by Councilman Wagoner, and unanimously passed, instructing the city attorney to investigate the city ordinances fixing the time railroad crossing flagmen should work each day. Councilman Wagoner said complaints had been made to him by many people about watchmen working twelve hours a day even though there were no trains and their services were not needed. The impression is that a city ordinance provides flagmen shall put in twelve hours a day, and councilmen indicated last night that if such is the case, the ordinance or ordinances should be amended so as not to keep flagmen on the job any longer than they are needed.

Complaint have been made, Councilman Wagoner said, because flagmen receive a fixed wage for an eight-hour day and time and a half for every hour they work overtime. He said his attention had been called to the fact that many flagmen were not needed more than eight hours a day, and that if they were not compelled to remain on duty twelve hours, the government would be saved money which is paid for the four extra hours at the rate of time and a half. He said—and his opinion was apparently shared by other members of the council and the mayor—that since the railroad men were being very liberally paid, he saw no occasion by keeping at their posts when their services are not needed. Councilman Wagoner explained that he was glad that the flagmen were receiving liberal wages, and that the complaint was made to him not because railroad men were favored, but because it was regarded as a useless expense to keep flagmen on duty during hours when their services absolutely were not needed.

Mayor Irvin inquired whether Councilman Scudder had investigated about obtaining an oiling wagon for use next spring in oiling the streets. The city levied a special tax for street oiling last year and this year expects to be its own contractor. Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

A Sure Investment

About the saddest thing in the world is to undergo self-denial for years, to save money and then see the "rainy day fund" wiped out by the failure of some "wild cat" scheme.

This happens every day. Widows and hard-working men are credulous. They listen to the oily promises of "get rich quick" promoters and hand over their savings to slick salesmen with "blue-sky" securities promising impossible profits.

And when the bolt falls out of the clear sky the faithful savings of years disappear in an instant. "The Bonanza Patrol Co. has gone up. We are ruined." Then there is nothing to do but begin life all over—and at a time when earning capacity has begun to ebb and the way is thornier than ever before.

Whatever the temptation may have been in the past to do this thing, there is no excuse for it now. Hundreds of thousands of experienced publicity and investment men have been at work for nearly two years, under the authority of the American Government, educating millions of people in the fine art of safe investing. It is undoubtedly the fact that more people are saving money today than ever before in all the history of the world. And more of the people are interested in the proper handling of their savings accumulations. Literally millions have been taught to buy Government bonds, and they have learned to buy Thrift and War Savings Stamps as the best possible way to prevent the waste of fugitive quarters and dimes.

The Government will offer another chance to "get in on the ground floor" during the spring when the Fifth Liberty Loan is offered. The money will be spent to pay the cost of maintaining and restoring to their homes the valiant soldiers who have won for America the world's greatest victory. The bills must be paid and the American people must pay them.

From the "thrift and savings" viewpoint the Fifth Liberty Loan will be as good as, or even better than, the previous Liberty Loans. It is likely to have a shorter maturity and that will enable the holder to obtain a generous income while he holds them and get his principle back, with a handsome appreciation during the coming period of intense activity and prosperity.

If anything "goes up in value" Liberty Bonds surely will. The way to get the benefit of such advances in values is to buy the coming Fifth Liberty Bonds.

To buy them when they are offered everybody should begin saving up now. Set aside all the money you can spare out of your wages and have it in your savings bank for the initial payment on Fifth Liberty Bonds.

Relief Workers Sacrifices.

The splendid work and self sacrifice of the American relief workers among the refugees in Turkey and the Near East was highly lauded by Henry Morgenthau, former United States Ambassador to Turkey, at a recent meeting of the American Committee for the relief in the Near East (formerly for Armenian and Syrian Relief). Mr. Morgenthau, in his official position as representative of the United States government in the Ottoman Empire, witnessed the work of the relief workers and their results during his stay in Turkey.

Armenian friends in their days of sore distress and trial," said the former Ambassador.

They carried their abnegation even so far as to desire to share their fate. One of the teachers accompanied her 60 girl pupils when they were deported by the Turks.

An Armenian who had heard of the incident said with tears of appreciation in his eyes: "That is what I call a saint in our days; she ought to be canonized by our church."

These workers cannot be kept at their task of administering to the sorely stricken people in the Near East unless the quota of \$30,000,000 to be raised in the United States by the American Committee Relief in the Near East in its campaign from January 12 to 19 is oversubscribed, Mr. Morgenthau asserted.

The American people need only to know these conditions, declared the former ambassador, in order to feel the deepest humanitarian impulse and to send more than the amount asked.

For months Rushville readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

A. M. Younger, retired farmer, 828 W. Tenth St., Rushville, says: "I have been using Doan's Kidney Pills off and on for about ten years and they have done me good. When a man gets as old as I, he is apt to have more or less trouble with his kidneys. At times I have had a dull ache across the small of my back and my back has been weak and lame. Then the kidney secretions have been too frequent in passage, causing me to get up at night. Every time I have been that way, I have bought a box of Doan's Kidney Pills at Johnson's Drug Store and they have never failed to relieve me in a short time."

REALTY TRADE SLACKENING UP

County Transfers For 15-Day Period Show Total Considerations Of Only \$48,847.00

FIFTEEN ARE RECORDED HERE

Largest Sale During First Half Of Month \$12,400, Sum Paid For An Eighty Acre Farm.

Real estate transfer records for the county the first half of this month reveal a slackening up in the realty trade, total considerations mentioned in the transfers amounting to only \$48,847, which is below the average for the fifteen-day period.

There were only fifteen transfers recorded, an average of one a day and had it not been for two sales above \$10,000, the total would have been far under the average. The largest consideration was \$12,400, which sum was paid for a farm of eighty acres in Center township.

East Hill Cemetery Co., to James W. and Mary Travis, east half of lot 102 in section 10, of the cemetery, \$100.00.

Swamp Root For Kidney Ailments

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidneys liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root, a physician's prescription for special diseases, makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound.

Start treatment at once. Sold at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Rushville Republican.—(Adv.)

NOTOWNSHIP DOCTOR NOW

Persons Soliciting Help Must Get an Order From Trustee Young.

Persons who solicit the aid of Rushville township, would save physicians much trouble if they would remember that there is no township physician and that when they want the services of a doctor free, they should get an order from

the trustee, James V. Young, and take it to the physician of their choice. The physician can then present the order and collect his bill of the township. There has been no township doctor here since Lieut. W. S. Coleman entered the service. He acted in that capacity for a number of years, but none has been appointed since he left.

The Rushville Auto Company is pleased to announce the coming of the Nash passenger cars and trucks to Rush county.

In taking over this line we have carefully looked into its record in service, as well as the standing of the Nash company.

It is well to note the following:

Mr. Nash, previous to taking over the Jeffry factory held the position as president of the General Motors Company for five years; and also General Manager of the Buick Motor Company for a number of years.

Mr. Nash also had charge of the airplane production for the U. S. Government during the world war.

During the war Mr. Nash produced \$37,000,000 worth of Nash products for war services.

The Nash factory covers 100 acres of ground with 30 acres under cover, and employs 3,000 mechanics.

The Rushville Auto Company will be ready for delivery of Nash passenger cars in a short time and are now prepared to furnish Nash trucks. They now have a Nash two-ton truck, equipped with pneumatic tires, in operation.

tractor and oil all of the unpaved streets. Councilman Scudder said he had inquired of the Indiana Road Preserving company and had been told that it would probably be possible to rent or buy one or more of their wagons in the spring. Councilman Wagoner suggested that an oiling attachment for the city street sprinkling wagon be purchased, but Councilman Scudder and other members of the council said that such a plan had been found, after investigation, not to be feasible.

The council did not put to a vote an informal suggestion that an appropriation be made to help pay the expenses of the influenza epidemic, but the councilmen indicated that they did not favor such a method because they did not believe they could legally make a donation. This is what it would amount to, they pointed out, because the relief work is under the direction of the Red Cross and the expenses are being paid by that organization. In order to vote an appropriation for relief, they said, a donation would have to be made to the Red Cross. If the relief work were under the direction of the city health board or if a municipal hospital were being conducted, it would then be perfectly

Our Christmas Savings Club

Affords an easy and sensible plan for systematically saving money for Christmas or for other purposes. By depositing small sums of from ONE CENT and UP to any convenient amount, a fund of money may be easily accumulated that will come in very handy when you get it back in a lump sum, plus interest, just before Christmas. By becoming a member you will conserve small amounts that usually slip through your fingers for trifles and things that are unnecessary, and when Christmas comes you will be just that much ahead.

legal to make an appropriation, councilmen said.

The council adjourned to meet at 1 p. m. the last day of the year, Tuesday, December 31, to clean up the business for the year. An appeal was made for all persons with claims against the city to have them on file by the time of that meeting, and the city clerk was instructed to advertise for all claims to be in by December 31.

Councilmen were elated at the turn of events with respect to the completion of the Third street pavement. The work has been delayed on account of the war making it impossible for the traction company to get the kind of rails called for in the plans and specifications. Last summer the contractor prepared to tear up the street along which the traction line runs, but the I. & C. prevented such action being taken by obtaining a temporary injunction in the circuit court.

The council made an appropriate

tion of \$3,990 from the water and light fund to reimburse the general fund, from which this sum had been inadvertently used to redeem water and light bonds.

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat and take a glass of
Salts to flush out Kidneys—
Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

GREENSBURG MAN IS NEW SUPERINTENDENT

Charles Zoller Will Succeed Lewis W. Henry and Continue to Act as Claim Adjuster

W. M. FRAZEE NOT WITH I. & C.

Charles Zoller of Greensburg has been appointed superintendent of the Indianapolis & Cincinnati Traction company, to succeed Lewis W. Henry, who died several days ago of influenza-pneumonia, according to local traction officials. Mr. Zoller is also the claim adjuster for the company. The duties of the chief clerk, which position Mr. Henry also held, will be performed by employees in the general offices here, it is stated.

It became known today that Will M. Frazee of this city, who for many years was the claim adjuster for the company, has severed his connections with the company entirely. Last spring when Mr. Frazee went to Arizona to look after mining interests, it was announced that Mr. Zoller had been appointed temporarily and that Mr. Frazee was away on a leave of absence. It is now stated that Mr. Zoller has been acting as claim agent all the time and that Mr. Frazee has not been identified with the I. & C. for some time.

Mr. Zoller is a prominent citizen of Greensburg and is identified with many interests there. He has been the federal food administrator for Decatur county.

RESIGNATION ACCEPTED

Berne, Dec. 18.—A dispatch received here from Berlin says the resignation of Dr. W. S. Solf as imperial secretary of foreign affairs has been accepted.

PRESIDENT FAVERS

LEAGUE OF NATIONS

Continued from Page One

The President's principal conversation today preceding the American conference was with Gabriel Hanotaux, former French foreign minister. Mr. Wilson studied reports and data on recent conferences. Despite the rain, he expected to take a motor trip.

At the dinner given last evening by Ambassador and Mrs. Sharp in honor of President and Mrs. Wilson and President and Madame Poincaré the guests were the ambassadors to France, the presidents of the senate and chamber, the ministers of marine and foreign affairs, Marshals Joffre and Foch and the prefect of the Seine and their wives, the American delegates to the peace conference and Generals Pershing, Bliss and Harts. A reception followed the dinner.

President Wilson and Marshal Foch talked for half an hour last night. The discussion dealt mainly with the armistice between the allies and Germany. Mr. Wilson was most favorably impressed as the result of this conversation with the marshal, according to Mareel Hutin, of the Echo de Paris.

M. Hutin says it is probable the treaty of peace will be signed at Versailles about the 1st of June, and that Marshal Foch will lead the allied armies under the arch of triumph in Paris within fifteen days after peace is declared.

During the rainy morning yesterday, Mr. Wilson worked in his study. In the afternoon the President saw Count Macchi di Cellere, the high commissioner of Italy for America, with whom Mr. Wilson had several important conferences on the steamship George Washington during the voyage from the United States.

RAILROAD BETTERED AS SHOWN BY REPORT

Half Billion Dollars Spent by the Systems in Ten Months up to November 1

PROJECTS FINANCED BY U. S.

Washington, Dec. 18.—Railroads under government control spent \$500,000,000 for additions, betterments and new equipment during the ten months up to November 1, or about twice as much as in the same period of recent years previously, it was shown in a recent

railroad administration report. Charges to capital account amounted to \$463,617,000, including \$203,373,000 for additions and betterments to tracks and for new buildings and \$245,139,000 for cars and locomotives.

During October the roads spent \$59,752,000 for capital improvements, including \$29,656,000 for general additions and \$28,953,000 for equipment. Many projects were financed by the government, but the \$1,000,000,000 improvement program cannot be completed this year.

STATE HAS CHANCE TO MAKE PERFECT RECORD

To Make 100% in Financing Campaigns Must Buy \$10,000,000 Saving Stamps by Jan. 1.

WEALTHIEST COUNTIES BEHIND

Indianapolis, Ind., Dec. 18.—Indiana to make a perfect score in all was financing campaigns must purchase \$10,000,000 worth of war saving stamps before Jan. 1.

one east of the Mississippi which has the chance of making a perfect record on war finance matter.

The state has a quota of \$58,000,000 worth of war savings stamps for the year. The state has paid for about \$48,000,000, according to present figures. More than that has been subscribed but the subscriptions will not be fulfilled in many instances.

J. B. Oliver of South Bend, director of the war saving stamp campaign is making a final effort to make the sales a success. Will H. Wade, head of the Liberty Loan organization is working with Oliver.

It was pointed out by Oliver today that the counties lagging behind in the campaign are the wealthiest in the state and made good records in all other financial campaigns. These include Marion, Allen, Vanderberg, Vigo, Madison, Clay, Spencer and Park.

HEALTH IN CAMPS BETTER

Influenza Less Virulent, Surgeon General Reports

Washington, Dec. 18.—Health conditions in army camps in the United States continued to improve during the week ended December 6, a report to the surgeon general of the army yesterday said. Both the non-effective and death rates were decidedly lower than for the preceding week.

Influenza continues to prevail at practically all stations, but the report said the disease is less virulent and less frequently complicated by pneumonia than during the earlier weeks of the epidemic.

BEST HOME-MADE COUGH SYRUP

When you have a severe, stubborn cough or cold, you need the best possible medicine you can get. Why not, therefore get one which is guaranteed the most soothing and satisfactory remedy ever used, or get your money back? Druggists everywhere are authorized to refund money if SCHIFFMANN'S EXPECTORANT is not found the very best ever used for Coughs, Colds, Bronchitis, Croup, Whooping Cough or Hoarseness. When mixed at home with honey or sugar syrup, 50 cents worth makes 64 teaspoonsful. Positively contains no chloroform, opium, morphine or any other narcotic, and is unlike any other cough medicine. It is so pleasant to take that children are fond of it. In case druggists should not have it order direct of R. J. Schiffmann, St. Paul, Minn.

Here's a Fair Question For Farmers

Would your health be the best if you were limited to one-fourth pound of sweets per month?

How About Your Pigs?

Would they grow so rapidly or be so healthy if a very important part of a proper food ration were cut too low?

Successful feeders find that corn alone gives insufficient protein.

If you will feed your hogs a little of our 60% tankage along with corn, a well balanced food ration is assured.

Our 60% tankage more than pays for itself in healthier and larger hogs.

Peace Time Strength of 375,000 Contemplated by Navy Will Require Extensive Campaign

PRESENT PERSONNEL 300,000

(By United Press.)

Washington, Dec. 17.—A peace time strength of 375,000 men now contemplated by the navy, will call for an extensive recruiting campaign, Captain Lanning of the bureau of navy, told the house naval committee today. This is due to necessities of releasing men, he said.

Lanning also revealed the shipping board is anxious to begin at once the development of merchant seamen independent of the naval recruiting work.

The present personnel of 300,000 is divided as follows:

Temporary enlisted men, 170,000; men who enlisted for the period of the war, \$45,000, and the remainder reserves.

The navy is bound to let out the reserves and temporary enlisted men at the conclusion of peace and intends to discharge others.

WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-fen—your physician knows the formula—it is printed below.

There's iron in Bio-fen—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-fen is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-fen is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-fen, it is printed on every package. Here it is: Lecithin, Calcium Glycerophosphate, Iron Peptonate, Manganese Peptonate; Ext. Nux. Vomica; Powdered Gentian; Phenolphthalein; Olearsin Capsicum, Kolo.

War Department Will Send no More Overseas For Phone Work

Washington, Dec. 18.—All women telephone operators who are being trained and held in this country for service with the American expeditionary forces were yesterday ordered dismissed by the War Department. The length of service for those still with the American expeditionary forces has not been determined.

It also developed yesterday that the signal corps recently sent abroad a group of enlisted men trained as operators and acquainted with the German language. These men will serve in occupied territory.

INCREASE OF 22 PERCENT IN WHEAT

Total of 2,891,000 Acres Seeded in Indiana This Year, According to Field Agent's Report

WEATHER CONDITIONS GOOD

Crop Goes Into Winter With Highest Condition Figure Ever Reported at This Season

Indianapolis, Ind., Dec. 18.—The winter wheat acreage seeded in Indiana this year shows an increase of 22 percent over last fall's seeding and makes a total of 2,891,000 acres; the largest ever put out in the State, according to the December crop report for Indiana, issued today by Geo. C. Bryant, Field Agent of the Bureau of Crop Estimates, United States Department of Agriculture. The acreage seeded for the entire United States is 49,027,000 acres, an increase over last year of 15.9 percent with a condition figure of 98.5.

The weather conditions during the fall have been exceptionally favorable to the winter wheat crop in this State. With good seed in all localities and the liberal use of fertilizer the crop goes into the winter with the highest condition figure (101 percent) ever reported at this time of the year. Hessian fly has been reported from only nine counties, four of which were in the northern part of the State and five in the southern part. Precipitation generally was at the proper time and kept the plants growing vigorously, and they are now well stooled and spread close to the ground with a strong, healthy root.

The rye acreage for the State has also been slightly increased over last year and amounts to 427,000 acres. The condition is nearly as good as the winter wheat (100 percent), although considerable of it was sown quite late in the season. The rye acreage for the entire United States is 6,882,000 acres, an increase of 1.9 percent over last year, and the condition is 89 percent.

Wages paid to farm hands have increased approximately only 15 percent over 1917 for work by the year, and 25 percent for work by the day. One reporter figured the wages for a married man on a large farm for one month as follows:

Cash	\$55.00
House rent and one acre of ground for garden	20.00
Feed for hogs and chickens	25.00
Fuel, and two milch cows	25.00
Use of automobile twice a week with driver	10.00
No lost time. Can you beat it in town? \$135.00

PLANS RAILROAD TRAVEL

Administration Discusses Resumption of Special Service

Washington, Dec. 18.—Restoration of observation cars, club cars and other forms of special service taken off passenger trains during the war were discussed yesterday at a conference of regional passenger traffic committees with Gerrit Ford passenger traffic director for the railroad administration.

Plans were made also for limited passenger service advertising in preparation for travel next summer.

FORM JAPANESE ALLIANCE

Marriage of Robert Irwin, Jr., to Miss Fusako Watanabe.

Tokio, Nov. 13. (By Mail)—The marriage of a direct descendant of Benjamin Franklin to the daughter of a retired surgeon in the Japanese army took place when Robert Walker Irwin, Jr., married Miss Fusako Watanabe.

Hundreds of friends, including many prominent foreign and Japanese residents of Tokio, attended a reception at the bridegroom's home following the wedding in the Catholic cathedral. Irwin's father has been a resident of Japan for almost half a century and is one of the wealthiest foreigners here. His relatives include members of many old Pennsylvania families. The bride is the daughter of Lieut.-Col. Watanabe.

PRESIDENT FAVERS LEAGUE OF NATIONS

Says he Believes Such a League is Absolutely Indispensable to the Maintenance of Peace

DENIES TRUTH OF DISPATCH

Declares Report He Approves Plan of The League to Enforce Peace is Entirely False

(By United Press)
Paris, Dec. 18.—"I not only favor the league of nations, but I believe formation of such a league is absolutely indispensable to the maintenance of peace," President Wilson declared today.

The president made his statement in denying the truth of a dispatch published in an American newspaper declaring he approved the plan of the League to Enforce Peace.

"It is entirely false," the president said. "I am, not only in favor of the league of nations but I believe formation of such a league as absolutely indispensable to the maintenance of peace. The present plan of the league in enforcing peace was never studied or endorsed by me."

The visit of the Italian Royal families and ministers to Paris will afford the first opportunity for the United States, France and Italy to get together on the matters of peace aspirations.

Premier Orlando and foreign minister, Sonnino, will be in conference with President Wilson, the American delegates and French minister. The Italian party will arrive tomorrow. They will probably urge Italy's special desire relative to her supremacy of the Adriatic; adjustment of the conflicting claims of Italy and the Jugo-Slavs on the eastern coast of the Adriatic; Italy's claim in the western Mediterranean and in northern Africa and the final disposition of both Austrian navy and merchant marine.

Italy desires that the enemy's indemnities shall be divided among the allies according to the damages suffered.

The first conferences of the complete American peace delegations will be held late this afternoon, when President Wilson goes to the Crillon Hotel to meet the other representatives.

America's strongest weapon in the peace negotiations is its ship building facilities and its control of raw materials. Great Britain, it is learned, would like 2,000,000 tons of American built merchant ships and France 1,000,000. Both countries are eager to make arrangements for distribution of raw material and insurance against over-shipping.

All nations would appreciate nationalization of American merchant marines and a share in our raw material, thus ending America's domination of the world markets.

America's participation in the world policies and commercial activities will depend entirely on the willingness of the entente powers to enter a league of nations. President Wilson is expected to show that a league will eliminate the danger of discriminating trade conditions.

President Wilson has been in France less than a week, yet signs are piling up that France and the United States are coming to an agreement. This does not mean that they are in absolute agreement on the entire peace program, but conferences are going on with a healthy rock bottom basis, according to convictions of the French. Everybody is confident already that there is no trouble ahead, high officials announced today.

Persons in contact with the president say conference so far have already meant much and will mean more. Honest outspoken collaboration between France and America is certain. Wilson and Clemenceau will guarantee that.

Sen. Knox Says League of Nations and Peace Are Separate Questions

(United Press)
Washington, Dec. 18.—Reiteration of his claim that the league of nations should be considered apart from the peace treaty, Senator Knox of Pennsylvania, today, declared, "that the issues of the war were issues between neutral powers, the central powers and the allies and the functions of the peace treaty is to settle those issues."

Knox began his speech directly after the senate foreign relation committee had adjourned until Saturday without taking definite action on his resolution, regarding the league. He declared that many of the American people does not know what the president meant by a league of nations.

Robert Taylor Alleges Wife Elopement With Another Man 5 Days Before He Was Discharged.

FILES SUIT FOR A DIVORCE

Alleging that his wife, Mamie Brenton Taylor, eloped on December 1 with Clifford B. Eggleston, alias Clifford B. Hyland, five days before he was mustered out of service at Camp Taylor, Kentucky, Robert A. Taylor has filed suit in the circuit court for a divorce.

Taylor charges that his wife is now living in the state of Michigan in an unlawful manner with Eggleton. He recites that she was intimate with many men, whose names he does not know, while he was in the service of his country. He was inducted into the army here July 21, 1918 and sent to Camp Taylor, the complaint recites, after which time his wife became untrue to him.

Taylor says that he and his wife were married April 6, 1918 and that they have not lived together since July 21, when he went to the army. He gives his residence as Rushville township, Rush county.

CONFlict IN BERLIN IS YET UNDECIDED

Demonstrations by Soldiers Outside Reichstag More Serious Than First Appeared

INSURGENT MEETING IS OFF

(By United Press)

Berlin, Dec. 18.—The conflict between the radicals and Ebert-Hasse government, which broke out afresh yesterday, is yet undecided. The demonstrations by soldiers outside of the reichstag building, led by Liebknecht, were more serious than first appeared.

The insurgent meeting of the Reichstag in defiance of the Ebert-Hasse government, was called off today by President Fehrenbach. He explained the meeting was "rendered unnecessary by extending of the armistice." By some it was regarded in some quarters as a complete breakdown.

ARMY BOARD MAY GET RECOGNITION

Prospects of Members Receiving Medals and Possibly Brevet Commissions

WORK PRACTICALLY ENDED

Hints Let Fall by Secretary of War Indicate Fitting Remembrance is Contemplated

That members of the Rush county army selection board, in common with all local boards all over the United States, may receive some recognition from the government for their services, is indicated by hints coming from various sources.

Whether this recognition shall come in the form of a brevet commissions or medals, or both, it is not known, but it is certain that either these means will be used by the government to show its appreciation of their work, or some other method will be adopted.

A brevet commission may range all the way from the rank of lieutenant to major, without pay, and gives the holder an honorary title, in addition to permission to wear a uniform, it is presumed, if he so desires.

Hints let fall by Secretary of War Baker, in his address before the annual conference of governors of states, at Annapolis, which closed today, make it plain that the government has in store some surprise for members of local boards.

The work of the local board is practically at an end, all records having been sealed and replies having from practically all employers of selected men called into the service, with respect to their employment when they are mustered out. The board expects to receive soon an honorable discharge, just as is granted every soldier who has been in the service.

It is believed here that the records are surely going to Washington, where the facts about each man's service will go in an individual case there to be kept permanently. In after years, when any federal officer needs to know about the record of any man in any county, who was passed through the machinery of the board, he will merely refer himself by means of a giant index, to the particular box where all the record will be found, compact and ready.

The total's documentary result of the board's work, which began here the first day of May, 1917, has a gross avoidance of several thousand pounds. Many questionnaires are blazoned over with two, four, or even six or seven separate affidavits. Every fact upon them had to be gained, and written down. When it is remembered that the questionnaires were thousands in number, and that for every one of them there had to be a course of correspondence, card supplementation and other matter which is no part of the permanent record, and when atop of all this, it is remembered that the handling of the questionnaires was only one item of the board's work. It becomes possible to obtain some idea of the scale and volume of the service of this body.

The pay of the board members has been paid in name, rather than in effect. As a body, the board has had to pay, out of its own funds, at last as much as its salary gave it. As a financial enterprise, the service of the board members, on the board, represents a loss and a pretty large one. But the board members did not enter this work with the thought of making money. They entered it as other soldiers entered service—because they were called, because duty pointed the way, and they had no disposition to sidestep duty.

If is believed that the government is devising some plan of adequate compensation, or at least of proper and sufficient recognition, of

"FLU" HINDERING ROLL CALL DRIVE

Canvasser Unable to Visit Twenty-Five Homes in One District Because of Epidemic

SOME GOOD NEWS, HOWEVER

Governor Goodrich Today Issues an Appeal For Support of Roll Call Canvass

Although the epidemic of influenza, which makes it impossible to visit scores of homes in the county, is expected to slow up the Red Cross Roll Call week membership campaign this week, those in charge of the drive are confident of ultimate success because of early unofficial reports which have been received.

No exact reports have been received from any of the townships yet by A. L. Gary, chairman of the campaign, but he has learned that in many districts all the way from seventy-five to one hundred percent of the population has been enrolled.

An idea of how the influenza is hindering the canvass may be gained from the report of one canvasser in Rushville, who said he was unable to visit twenty-five homes in his territory because of patients suffering with the influenza.

Beginning with today, every canvasser in the county is given permission to solicit any person, any place, any time, who is not wearing a 1918 Red Cross button. It behooves everybody who has not paid their dollar and obtained a membership for next year, to do so at once, because they are very likely to be besieged on all sides by canvassers, who are anxious to see Rush county make an unusually fine showing in the Red Cross Roll Call campaign.

Governor James P. Goodrich has made an appeal for support of the campaign in the following statement released for publication today.

To the People of Indiana.

The Hoosier state is in the midst of a great campaign, part of a real national movement—the Christmas Membership Roll Call of the American Red Cross. Indiana people are called upon to enroll under the banner of the world's greatest mercy organization. But few days are left for our state to respond to the call. There is danger that Indiana's glory in past patriotic achievements may be dimmed if an indifferent ear is turned to this important call. We must answer with a united voice that will be heard by our boys across the sea—that we are still backing the organization that was first to minister to them in their hour of need.

That slogan of the campaign "All it takes is a heart, and a dollar," must not fall on unheeding ears in Indiana. No citizen can afford to say to himself, "The war is over, why should I join?" The work of the Red Cross must go on and on. War has left behind a hideous legacy of poverty and want, of suffering and distress. There is work to be done that calls for millions of willing consecrated hands and hearts. Your membership will help the Red Cross to complete the great task. There is not to be another money-getting campaign for the Red Cross. In responding to this Roll Call we are simply showing our faith and approval in what the Red Cross has done, in what it hopes to accomplish. It is an endorsement of the traditional principles of the Red Cross "Humanity and Mercy."

When we answer "Here" to this Christmas Roll Call we say to our boys over there, "We are still backing you to the last dollar." Let us, as loyal Hoosiers make it a universal Red Cross membership in Indiana. Let us be able on Christmas eve to point to a Red Cross service in every window. If we fail in this greatest, it will be the first in

FOLLOWS HER SON IN DEATH

Mrs. Ora Walls Expires of Influenza-Pneumonia Near New Salem.

Following her son in death within twenty-four hours, Mrs. Ora Walls expired at her home near New Salem shortly after noon yesterday, both deaths being due to influenza-pneumonia. Mrs. Walls was not expected to live when her son, Willard, age fourteen years, died Monday. A pitiable condition exists at the Walls home because six children left in the family are all afflicted with the influenza, and one of them is a three-days-old baby. Mrs. Walls was 32 years of age and is survived by her husband, in addition to the children. The funeral services will be held at the late residence tomorrow morning at 10:30 o'clock and burial will take place in Hopewell cemetery.

TODAY'S REPORT IS MOST ENCOURAGING

Only One New Case of Influenza is Reported For a Period of Twenty-Four Hours

DAILY AVERAGE IN CITY IS 8

The influenza epidemic report today was the most encouraging it has been for many weeks because only one new case of the malady was reported during the twenty-four hour period ending at noon.

Catherine Felts, age five years, 314 West Tenth street, was the lone patient reported. The county health officer has received no reports of new cases outside of Rushville since yesterday morning.

The decrease in new cases in the last few days is reflected in the total for the month so far in Rushville—144, which make the daily average of new patients eight since the first of December. Up to December 14 the daily average was ten cases a day in Rushville.

A representative of the state board of health was here yesterday conferring with the health officers and Mayor Irvin regarding the local situation and he went away satisfied that it was well in hand.

YANKS IN POSITION ALONG RHINE RIVER

First, Second and 33rd Divisions Complete March and Patrol Northern Half of Bridgehead

3 DIVISIONS ARE IN SUPPORT

With the Americans Across the Rhine, Dec. 18.—The first, second and 33rd divisions have completed their march and are patrolling the edge of northern half of the semicircle bridgehead. The French occupy the south half, the 42nd taking their positions on the left bank of the Rhine, north of Coblenz and the fourth occupying similar positions south of the city. The third division in a column thirty miles long, marched up the Rhine, falling in position behind Coblenz and passed through the edge of the city. The 70th field artillery with a mounted band marched in along the Rhine at dusk.

The 33rd, 98th, and 90th divisions are taking positions of support along the frontier.

City Councilmen Hear Letter From C. L. Henry, Saying Pavement May be Completed

REGULAR MEETING IS HELD

Council Kills Mayor's Ordinance

Making it Unlawful to "Dress

Up" Hallowe'en

Favorable prospects for the completion of the pavement of Third street next spring were seen at the regular meeting of the city council last night when a letter from Charles L. Henry, president of the Indianapolis & Cincinnati Traction company was read, saying arrangements could probably be made for resumption of work on the improvement as soon as the weather is suitable early in 1919.

The council instructed the city clerk to reply to Mr. Henry between now and March 1, informing him that the city would like to have the pavement finished as soon as possible.

The council also voted unanimously against an ordinance prepared by Mayor A. B. Irvin to prevent the wearing of masks and grotesque costumes on Hallowe'en night. The vote was taken when the proposed ordinance was read for the third time and placed on final passage. The measure was very severe in its terms and provided a fine for even appearing on the streets with a "false face." It was prepared by the mayor soon after last Hallowe'en and took its regular course, coming up for first and second readings at successive council meetings, and then for third reading and passage last night. Councilmen had previously indicated they would not vote for the measure.

A motion was placed before the council by Councilman Wagoner, and unanimously passed, instructing the city attorney to investigate the city ordinances fixing the time railroad crossing flagmen should work each day. Councilman Wagoner said complaints had been made to him by many people about watchmen working twelve hours a day even though there were no trains and their services were not needed. The impression is that a city ordinance provides flagmen shall put in twelve hours a day, and councilmen indicated last night that if such is the case, the ordinance or ordinances should be amended so as not to keep flagmen on the job any longer than they are needed.

Complaints have been made, Councilman Wagoner said, because flagmen receive a fixed wage for an eight-hour day and time and a half for every hour they work overtime. He said his attention had been called to the fact that many flagmen were not needed more than eight hours a day, and that if they were not compelled to remain on duty twelve hours, the government would be saved money which is paid for the four extra hours at the rate of time and a half. He said—and his opinion was apparently shared by other members of the council and the mayor—that since the railroad men were being very liberally paid, he saw no occasion by keeping at their posts when their services are not needed. Councilman Wagoner explained that he was glad that the flagmen were receiving liberal wages, and that the complaint was made to him not because railroad men were favored, but because it was regarded as a useless expense to keep flagmen on duty during hours when their services absolutely were not needed.

Mayor Irvin inquired whether Councilman Scudder had investigated about obtaining an oiling wagon for use next spring in oiling the streets. The city levied a special tax for street oiling last year and this year expects to be its own contractor.

The only difference was in details, not in the spirit or seriousness of service. A member of the local board could not more have resigned from the position he or she held than a soldier at the front could resign. They were under the military machinery, and it would not listen to individual complaints.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

A Sure Investment

About the saddest thing in the world is to undergo self-denial for years, to save money and then see the "rainy day fund" wiped out by the failure of some "wild cat" scheme.

This happens every day. Widows and hard-working men are credulous. They listen to the oily promises of "get rich quick" promoters and hand over their savings to slick salesmen with "blue-sky" securities promising impossible profits.

And when the bolt falls out of the clear sky the faithful savings of years disappear in an instant. "The Bonanza Patrol Co. has gone up. We are ruined." Then there is nothing to do but begin life all over—and at a time when earning capacity has begun to ebb and the way is thornier than ever before.

Whatever the temptation may have been in the past to do this thing, there is no excuse for it now. Hundreds of thousands of experienced publicity and investment men have been at work for nearly two years, under the authority of the American Government, educating millions of people in the fine art of safe investing. It is undoubtedly the fact that more people are saving money today than ever before in all the history of the world. And more of the people are interested in the proper handling of their savings accumulations. Literally millions have been taught to buy Government bonds, and they have learned to buy Thrift and War Savings Stamps as the best possible way to prevent the waste of fugitive quarters and dimes.

The Government will offer another chance to "get in on the ground floor" during the spring when the Fifth Liberty Loan is offered. The money will be spent to pay the cost of maintaining and restoring to their homes the valiant soldiers who have won for America the world's greatest victory. The bills must be paid and the American people must pay them.

From the "thrift and savings" viewpoint the Fifth Liberty Loan will be as good as, or even better than, the previous Liberty Loans. It is likely to have a shorter maturity and that will enable the holder to obtain a generous income while he holds them and get his principle back, with a handsome appreciation during the coming period of intense activity and prosperity.

If anything "goes up in value" Liberty Bonds surely will. The way to get the benefit of such advances in values is to buy the coming Fifth Liberty Bonds.

To buy them when they are offered everybody should begin saving up now.

Set aside all the money you can spare out of your wages and have it in your savings bank for the initial payment on Fifth Liberty Bonds.

Relief Workers Sacrifices.

The splendid work and self sacrifice of the American relief workers among the refugees in Turkey and the Near East was highly lauded by Henry Morgenthau, former United States Ambassador to Turkey, at a recent meeting of the American Committee for the relief in the Near East (formerly for Armenian and Syrian Relief). Mr. Morgenthau, in his official position as representative of the United States government in the Ottoman Empire, witnessed the work of the relief workers and their results during his stay in Turkey.

Armenian friends in their days of sore distress and trial," said the former Ambassador.

"They carried their abnegation even so far as to desire to share their fate. One of the teachers accompanied her 60 girl pupils when they were deported by the Turks.

An Armenian who had heard of the incident said with tears of appreciation in his eyes: "That is what I call a saint in our days; she ought to be canonized by our church."

These workers cannot be kept at their task of administering to the sorely stricken people in the Near East unless the quota of \$30,000,000 to be raised in the United States by the American Committee Relief in the Near East in its campaign from January 12 to 19 is oversubscribed, Mr. Morgenthau asserted. The American people need only to know these conditions, declared the former ambassador, in order to feel the deepest humanitarian impulse and to send more than the amount asked.

For months Rushville readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

A. M. Younger, retired farmer, 828 W. Tenth St., Rushville, says: "I have been using Doan's Kidney Pills off and on for about ten years and they have done me good. When a man gets as old as I, he is apt to have more or less trouble with his kidneys. At times I have had a dull ache across the small of my back and my back has been weak and lame. Then the kidney secretions have been too frequent in passage, causing me to get up at night. Every time I have been that way, I have bought a box of Doan's Kidney Pills at Johnson's Drug Store and they have never failed to relieve me in a short time."

REALTY TRADE SLACKENING UP

County Transfers For 15-Day Period Show Total Considerations Of Only \$48,847.00

FIFTEEN ARE RECORDED HERE

Largest Sale During First Half Of Month \$12,400, Sum Paid For An Eighty Acre Farm.

Real estate transfer records for the county the first half of this month reveal a slackening up in the realty trade, total considerations mentioned in the transfers amounting to only \$48,847, which is below the average for the fifteen-day period.

There were only fifteen transfers recorded, an average of one a day and had it not been for two sales above \$10,000, the total would have been far under the average. The largest consideration was \$12,400, which sum was paid for a farm of eighty acres in Center township.

NOTOWNSHIP DOCTOR NOW

Persons Soliciting Help Must Get an Order From Trustee Young.

Persons who solicit the aid of Rushville township, would save physicians much trouble if they would remember that there is no township physician and that when they want the services of a doctor free, they should get an order from

the trustee, James V. Young, and take it to the physician of their choice. The physician can then present the order and collect his bill of the township. There has been no township doctor here since Lieut. W. S. Coleman entered the service. He acted in that capacity for a number of years, but none has been appointed since he left.

NASH

The Rushville Auto Company is pleased to announce the coming of the Nash passenger cars and trucks to Rush county.

In taking over this line we have carefully looked into its record in service, as well as the standing of the Nash company.

It is well to note the following:

Mr. Nash, previous to taking over the Jeffry factory held the position as president of the General Motors Company for five years; and also General Manager of the Buick Motor Company for a number of years.

Mr. Nash also had charge of the airplane production for the U. S. Government during the world war.

During the war Mr. Nash produced \$37,000,000 worth of Nash products for war services.

The Nash factory covers 100 acres of ground with 30 acres under cover, and employs 3,000 mechanics.

The Rushville Auto Company will be ready for delivery of Nash passenger cars in a short time and are now prepared to furnish Nash trucks. They now have a Nash two-ton truck, equipped with pneumatic tires, in operation.

tractor and oil all of the unpaved streets. Councilman Seudder said he had inquired of the Indiana Road Preserving company and had been told that it would probably be possible to rent or buy one or more of their wagons in the spring. Councilman Wagoner suggested that an oiling attachment for the city street sprinkling wagon be purchased, but Councilman Seudder and other members of the council said that such a plan had been found, after investigation, not to be feasible.

The council did not put to a vote an informal suggestion that an appropriation be made to help pay the expenses of the influenza epidemic, but the councilmen indicated that they did not favor such a method because they did not believe they could legally make a donation. This is what it would amount to, they pointed out, because the relief work is under the direction of the Red Cross and the expenses are being paid by that organization. In order to vote an appropriation for relief, they said, a donation would have to be made to the Red Cross. If the relief work were under the direction of the city health board or if a municipal hospital were being conducted, it would then be perfect-

Our Christmas Savings Club

Affords an easy and sensible plan for systematically saving money for Christmas or for other purposes. By depositing small sums of from ONE CENT and UP to any convenient amount, a fund of money may be easily accumulated that will come in very handy when you get it back in a lump sum, plus interest, just before Christmas. By becoming a member you will conserve small amounts that usually slip through your fingers for trifles and things that are unnecessary, and when Christmas comes you will be just that much ahead.

ly legal to make an appropriation, councilmen said.

The council adjourned to meet at 1 p.m. the last day of the year, Tuesday, December 31, to clean up the business for the year. An appeal was made for all persons with claims against the city to have them on file by the time of that meeting, and the city clerk was instructed to advertise for all claims to be in by December 31.

Councilmen were elated at the turn of events with respect to the completion of the Third street pavement. The work has been delayed on account of the war making it impossible for the traction company to get the kind of rails called for in the plans and specifications. Last summer the contractor prepared to tear up the street along which the traction line runs, but the I. & C. prevented such action being taken by obtaining a temporary injunction in the circuit court.

The council made an appropri-

ation of \$3,990 from the water and light fund to reimburse the general fund, from which this sum had been inadvertently used to redeem water and light bonds.

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat and take a glass of Salts to flush out Kidneys — Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, aches, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescence lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble.

PRESIDENT FAVERS

LEAGUE OF NATIONS

Continued from Page One

The President's principal conversation today preceding the American conference was with Gabriel Hanotaux, former French foreign minister. Mr. Wilson studied reports and data on recent conferences. Despite the rain, he expected to take a motor trip.

At the dinner given last evening by Ambassador and Mrs. Sharp in honor of President and Mrs. Wilson and President and Madame Poincaré the guests were the ambassadors to France, the presidents of the senate and chamber, the ministers of marine and foreign affairs, Marshals Joffre and Foch and the prefect of the Seine and their wives, the American delegates to the peace conference and Generals Pershing, Bliss and Harts. A reception followed the dinner.

President Wilson and Marshal Foch talked for half an hour last night. The discussion dealt mainly with the armistice between the allies and Germany. Mr. Wilson was most favorably impressed as the result of this conversation with the marshal, according to Marcel Hulin, of the Echo de Paris.

M. Hulin says it is probable the treaty of peace will be signed at Versailles about the 1st of June, and that Marshal Foch will lead the allied armies under the arch of triumph in Paris within fifteen days after peace is declared.

RAILROAD BETTERED AS SHOWN BY REPORT

Half Billion Dollars Spent by the Systems in Ten Months up to November 1

PROJECTS FINANCED BY U. S.

Washington, Dec. 18.—Railroads under government control spent \$500,000,000 for additions, betterments and new equipment during the ten months up to November 1, or about twice as much as in the same period of recent years previously, it was shown in a recent

railroad administration report. Charges to capital account amounted to \$463,617,000, including \$203,373,000 for additions and betterments to tracks and for new buildings and \$245,139,000 for cars and locomotives.

During October the roads spent \$59,752,000 for capital improvements, including \$29,656,000 for general additions and \$28,953,000 for equipment. Many projects were financed by the government, but the \$1,000,000,000 improvement program cannot be completed this year.

\$115.00

We invite you to come to our salesroom and hear for yourself this most wonderful of all Phonographs.

The Vocalion eliminates practically all of that mechanical noise so commonly heard on the ordinary phonograph.

The Aeolian—the only Phonograph which is made by a great musical instrument maker—The Aeolian Company.

It's different—and it will appeal to you, if you are a music lover.

The Vocalion plays all records with that same sweet, clear tone that is so characteristic of all the Aeolian Company's Musical Instruments, and by the use of that little device called the Graduola you can actually play your records, just the same as you can play the rolls on your player piano.

We want you to hear it, whether you are going to buy an instrument or not. We will be glad to show you the Vocalion and let you hear for yourself—the superior tone quality.

STATE HAS CHANCE TO MAKE PERFECT RECORD

To Make 100% in Financing Campaigns Must Buy \$10,000,000 Saving Stamps by Jan. 1.

WEALTHIEST COUNTIES BEHIND

Indianapolis, Ind., Dec. 18.—Indiana to make a perfect score in all was financing campaigns must purchase \$10,000,000 worth of war saving stamps before Jan. 1.

one east of the Mississippi which has the chance of making a perfect record on war finance matter.

The state has a quota of \$58,000, worth of war savings stamps for the year. The state has paid for about \$48,000,000, according to present figures. More than that has been subscribed but the subscriptions will not be fulfilled in many instances.

J. B. Oliver of South Bend, director of the war saving stamp campaign is making a final effort to make the sales a success. Will H. Wade, head of the Liberty Loan organization is working with Oliver.

It was pointed out by Oliver today that the counties lagging behind in the campaign are the wealthiest in the state and made good records in all other financial campaigns. These include Marion, Allen, Vanderberg, Vigo, Madison, Clay, Spence and Park.

HEALTH IN CAMPS BETTER

Influenza Less Virulent, Surgeon General Reports

Washington, Dec. 18.—Health conditions in army camps in the United States continued to improve during the week ended December 6, a report to the surgeon general of the army yesterday said. Both the non-effective and death rates were decidedly lower than for the preceding week.

Influenza continues to prevail at practically all stations, but the report said the disease is less virulent and less frequently complicated by pneumonia than during the earlier weeks of the epidemic.

Peace Time Strength of 375,000 Contemplated by Navy Will Require Extensive Campaign

PRESENT PERSONNEL 300,000

(By United Press.)

Washington, Dec. 17.—A peace time strength of 375,000 men now contemplated by the navy, will call for an extensive recruiting campaign, Captain Lanning of the bureau of navy, told the house naval committee today. This is due to necessities of releasing men, he said.

Lanning also revealed the shipping board is anxious to begin at once the development of merchant seamen independent of the naval recruiting work.

The present personnel of 300,000 is divided as follows:

Temporary enlisted men, 170,000; men who enlisted for the period of the war, \$45,000, and the remainder reserves.

The navy is bound to let out the reserves and temporary enlisted men at the conclusion of peace and intends to discharge others.

WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-fen—your physician knows the formula—it is printed below.

There's iron in Bio-fen—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-fen is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-fen is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-fen, it is printed on every package. Here it is: Lecithin; Calcium Glycerophosphate; Iron Peptone, Manganese Peptone; Ext. Nux Vomica; Powdered Gentian; Phenolphthalein; Olearin; Capsicum, Kolo.

INCREASE OF 22 PERCENT IN WHEAT

Total of 2,891,000 Acres Seeded in Indiana This Year, According to Field Agent's Report

WEATHER CONDITIONS GOOD

Crop Goes Into Winter With Highest Condition Figure Ever Reported at This Season

Indianapolis, Ind., Dec. 18.—The winter wheat acreage seeded in Indiana this year shows an increase of 22 percent over last fall's seeding and makes a total of 2,891,000 acres; the largest ever put out in the State, according to the December crop report for Indiana, issued today by Geo. C. Bryant, Field Agent of the Bureau of Crop Estimates, United States Department of Agriculture. The acreage seeded for the entire United States is 49,027,000 acres, an increase over last year of 15.9 percent with a condition figure of 98.5.

The weather conditions during the fall have been exceptionally favorable to the winter wheat crop in this State. With good seed in all localities and the liberal use of fertilizer the crop goes into the winter with the highest condition figure (102 percent) ever reported at this time of the year. Hessian fly has been reported from only nine counties, four of which were in the northern part of the State and five in the southern part. Precipitation generally was at the proper time and kept the plants growing vigorously, and they are now well stooled and spread close to the ground with a strong, healthy root.

The rye acreage for the State has also been slightly increased over last year and amounts to 427,000 acres.

The condition is nearly as good as the winter wheat (100 percent), although considerable of it was sown quite late in the season. The rye acreage for the entire United States is 6,882,000 acres, an increase of 1.9 percent over last year, and the condition is 89 percent.

Wages paid to farm hands have increased approximately only 15 percent over 1917 for work by the year, and 25 percent for work by the day. One reporter figured the wages for a married man on a large farm for one month as follows:

Cash	\$55.00
House rent and one acre of ground for garden	20.00
Feed for hogs and chickens	25.00
Fuel, and two milch cows	25.00
Use of automobile twice a week with driver	10.00
No lost time. Can you beat it in town?

HALTS WOMEN OPERATORS

War Department Will Send no More Overseas For Phone Work

Washington, Dec. 18.—All women telephone operators who are being trained and held in this country for service with the American expeditionary forces were yesterday ordered dismissed by the War Department. The length of service for those still with the American expeditionary forces has not been determined.

It also developed yesterday that the signal corps recently sent abroad a group of enlisted men trained as operators and acquainted with the German language. These men will serve in occupied territory.

PLANS RAILROAD TRAVEL

Administration Discusses Resumption of Special Service

Washington, Dec. 18.—Restoration of observation cars, club cars and other forms of special service taken off passenger trains during the war were discussed yesterday at a conference of regional passenger traffic committees with Gerrit Ford passenger traffic director for the railroad administration.

Plans were made also for limited passenger service advertising in preparation for travel next summer.

Marriage of Robert Irwin, Jr., to Miss Fusako Watanabe.

Tokio, Nov. 13. (By Mail)—The marriage of a direct descendant of Benjamin Franklin to the daughter of a retired surgeon in the Japanese army took place when Robert Walker Irwin, Jr., married Miss Fusako Watanabe.

Hundreds of friends, including many prominent foreign and Japanese residents of Tokio, attended a reception at the bridegroom's home following the wedding in the Catholic cathedral. Irwin's father has been a resident of Japan for almost half a century and is one of the wealthiest foreigners here. His relatives include members of many old Pennsylvania families. The bride is the daughter of Lieut.-Col. Watanabe.

OUR RATES

All advertisements, except display, are charged for at the rate of one-half cent per word for each insertion. The same ad will be placed in the Indianapolis Star and Daily Republican at the combined rate of one and one-half cent per word.

We earnestly solicit these advertisements by telephone and expect payment when the collector calls. Ads mailed in should be accompanied by the remittance, as the amount is generally too small to justify bookkeeping.

Cards of Thanks and Obituaries are charged for at the same rate, minimum 25 cents. No charge accounts opened.

CLASSIFIED ADVERTISEMENTS ARE NOT TAKEN AFTER 10:00 A. M. FOR PUBLICATION ON THE SAME DAY.
